

I am writing because of my concern for the possibility of our radio station K-LOVE to be taken off air. K-LOVE is invaluable in its service to our community. It provides programming that the whole family can enjoy without undue concern about content. Too many radio stations provide programming that has content that should be banned from the airwaves because of content that really should be x-rated and kept from children. With K-LOVE we do not have that concern. K-LOVE provides programming that promotes healthy lifestyles (spiritual, physical, and emotional). Please help us keep our station on the air.
